	TOTAL COST (without GST)		$

* Prices quote are exclusive of GST (applicable only to samples originating within Australia).

[+]We endeavour to provide the best quality service within the constraints of the sample provided. However, due to the nature of 2-D PAGE, the success of the run is not apparent until the process is completed. **Please note that fees are payable regardless of the results obtained**. Samples are placed in a queue on receipt with the completed form. Reports will be sent in electronic format (PDF or Word files).

Declaration

I have read the terms and conditions of APAF services (available in the website). I agree to the charges listed above and I have prepared the sample(s) according to APAF's guidelines (available in the website). I also agree that APAF will be notified of all publications containing the results from this work. These publications will acknowledge the contribution of APAF with the words *"This work was undertaken at APAF the infrastructure provided by the Australian Government through the National Collaborative Research Infrastructure Strategy (NCRIS)."*
